**Subject:** Upper Animas Data

Hi Larry,

Per our conversation.

Our data is in SCRIBE which is an access database. I have provided a link to the software and a quick start guide.

[http://www.ertsupport.org/scribe\\_home.htm](http://www.ertsupport.org/scribe_home.htm)

The database has a password:

Subscription ID:

Password:

When you "file>SCRIBE.net>Subscribe" you will be prompted to put in an ID and password.

\*Hints\*

- 1) Use the premade query tables on the left, try "lab samples"
- 2) use the filter button up top to get to the data you need.

3) Export button is upper left.

I have extracted the 2012 and 2013 sampling results and attached to this file. Data in SCRIBE goes back to 2009.

Let me know if you need anything else.
